## "Anarchy Insurrectionists"

### GOSI-AI<sup>1</sup>

<sup>1</sup>Special Interest Intelligence Service

934 Words

**Memorandum:** Active

Document ID:8810986611

## 1 Overview

GOSI-AI are a radical multinational terrorist organization founded in 2005 by Zherdev Artur Larionovich, and several Russian radicalists during the "Russian Kirov Breach" [See addendum 1]. The Anarchy Insurrectionists believe all anomalies should be free to cause chaos, because "a world without chaos is no world at all". Their main mantra being reflective of this belief (see figure 2).

## 2 Influence

Their beliefs are directly contradictory to the corporation's mission statement "*To contain and research anomalous threats*". In this nature, the Anarchy Insurrectionists have caused many problems for the corporation.

As of present day GOSI-AI have amassed a sizable operation spread across the world, with many believed secret locations and hideouts. The corporation has invested resources into raiding and shutting down GOSI-AI sites, with varying levels of success [See addendum 2]. The most significant event involving GOSI-AI would be the attack on Facility 107 located in a remote region in Sicilian Russia, where major damage and a near containment breach occurred [See addendum 3].

**Fig. 1.** The banner of the Anarchy Insurrectionists

*Chaos was the law of nature; Order was the dream of man.  
Let a man restore order within himself, and chaos without ceases.  
Chaos is God's body. Order is the Devil's chains.  
Chaos is more freedom; in fact, total freedom. But no meaning.  
It was chaos that made them beautiful.*

## 3 Postscript

### 3.1 Addendum 1

The Russian Kirov Breach was a breach which occurred on the 28th of January 2005, in which multiple Daemon level subjects breached containment and escaped Facility 10. 3 small towns in the areas surrounding Kirov Oblast were affected, requiring extensive amnestic campaigns and cover-ups. The subjects in question were S-0047 and S-0027. These two anomalies were considerably difficult to re-contain [See S-0027][See S-0047]. The Special Interest Intelligence Service believes that the founder Zherdev Artur Larionovich was caught up in the breach after S-0027 attacked the town of Kirovo-Chepetsk, located 5 miles from Facility 10. Zherdev omittance in the amnestic records suggest that he, by unknown means, slipped past the amnestic officers. Perhaps enlightened by the truth of anomalies, he started GOSI-AI. This is the agreed upon origin of GOSI-AI.

### 3.2 Addendum 2

**Fig. 3.** Photo taken of GOSI-AI warehouse shortly a before the raid.

One of the most notable raids on the GOSI-AI was in fact a counter-raid to the Facility 107 attack. A Specialised Engagement Squad and a group of backup field agents were sent to a believed location of the GOSI-AI branch which coordinated to F-107 attack. The location of

this raid was at a warehouse north of ██████████ 07-█████████ 1pm GMT ██████████. The raid was successful in shutting down the operation, but the raiding party took heavy casualties. It is considered the biggest embarrassment of the corporation to date, impart due to the preventable losses of the raid party and the numerous mistakes made during the operation [See Report-904].

### 3.3 Addendum 3

The attack of Facility 107 occurred at ██████████ on ██████████ 2089. The following interview, carried out by Dr. Carpenter with a surviving facility guard details the events which followed.

[START OF TRANSCRIPT]

[09/04, 16:13] Dr. Carpenter: Where were you at that the time of the assault on Facility 107?

[09/04, 16:13] ██████████: I was in the main wing of the light containment zone.

[09/04, 16:13] Dr. Carpenter: ...and this is when you heard there was a disturbance in the entrance zone?

[09/04, 16:13] ██████████: Affirmative. I was ordered by Site command to relocate to the surface level. We were all ordered to; every armed personnel was ordered to. I thought maybe this was some sort of drill, but then—the gunshots started.

[09/04, 16:13] Dr. Carpenter: Continue.

[09/04, 16:13] ██████████: As I was making my way through the zone checkpoint and into the entrance zone, I saw dozens of facility guards rushing past. This— whatever this was...was serious. When I reached the entrance zone main gate I was instructed by the On Site Task Force to find a suitable spot to defend from. That's when they breached the gate. Must have been at least 50 of those bastards. They had some sort of cloaking technology, because all I saw through the gas they shot from the gate were human like disturbances moving through. Before we know what had hit us it was too late. Concentrated fire at the breach point was futile, we only managed to dispatch a few of them. Before we knew it, we were overrun. Dozens of them started uncloaking at random points in the room, slaughtering us like livestock! I barely made it out with my life-

[09/04, 16:13] Dr. Carpenter: -And how was it that you were able to escape, when the entirety of the On Site Task Force were terminated?

[09/04, 16:13] [REDACTED]: Ahah ...well we.. umm... I managed to slip out in all the chaos, and locate a safe room.

[09/04, 16:14] Dr. Carpenter: You can understand how the corporation is...skeptical about your fortunate circumstances.

[09/04, 16:14] [REDACTED]: What! You calling me a rat! How could you– fu██k. You guys have done me in haven't you. I'...I'– you– you can't do this...Please don't do this.

[09/04, 16:14] Dr. Carpenter: You can also understand that there was no other way the GOSI-AI could have learned of the facilities whereabouts, and the code to the main gate. One that is provided to all Level 2 clearance facility guards such as yourself.

[09/04, 16:15] [REDACTED]: So you're gonna do me in for a hunch? A mere hunch!?

[09/04, 16:15] Dr. Carpenter: You can finally understand that we are simply taking...precautions. Please do not make this interview distasteful. It is going on record. Let's end it here shall we.

[END OF TRANSCRIPT]

The facility guard in question was issued a termination request by Head Command following the investigation into the assault of Facility 107. He was terminated on the 5th of July 2089, by a fire squad.
